Life around the globe has taught GABO: „I know that this fun-world in which we are moving, is nothing but fake! All in good shape, thin and eternally young; jabbering in all talk shows. But you are even sad, vulnerable and thoughtful as well and it's a long way to find to yourself „.

Gabo wants to keep it in a natural way and not to manipulate too much with Photoshop.

To tease out this honest approach from her counterparts in front of the camera, appealed Gabo from the beginning and describes the secret of her pictures. To transport the soul and truth in a picture, is the happiest for GABO.

And the Stars & Stripes, construction workers and Chancellor again feel comfortable – have fun – trust ...
And appreciate her unique dealing with flattering light.
